**[User Mounted Unit (only for MX2-5000N)]**

OP-MX250-S : Length Scale	OP-MX250-FA : FA version
It digitally indicates travel distance of a force gauge.	It builds a linear scale into a test stand to output travel distance of a force gauge and allows to utilize it for analysis of force-displacement relations.

- \*Requires to fix the unit to test stand by yourself.
- \*Amplifier such as ZTA and FA Plus2 (sold separately) or software are required to record measuring value of linear scale.
- \*Can be retrofitted to MX2-5000N-EXT (extended column option).
